Art Therapy Consent Form

I herby give consent that artwork and supporting case material produced by my child, _____ in evaluation or intervention can be used by Dr. Peg Dunn-Snow for any of the following purposes:

- 1. Supervisory sessions;
- 2. Consultation with mental health professionals relevant to the student's treatment;
- 3. Education and training of mental health students or professionals, (including part of the written case study);
- 4. Publication in professional journals
- 5. Presentation at professional conferences
- 6. Posting on Professional Internet sites (i.e. websites and professional networking sites)

No reference will be made to the identity of my child and any potentially identifying content will be redacted (removed or edited out) in compliance with Public Law 104-191 Health Insurance Portability and Accountability Act (HIPAA) standards.

The release of information in client records belongs to the client and shall not be shared without permission granted through a formal, specific release of information. (American Mental Health Counselors Association, 2010)

Name of minor: _____

Signature of art therapist: _____

Signature of parent or guardian: _____

Date: _____

iAM compliant

Christmas Shutdown Checklist

Shutdown checklist	Yes	No	N/A	F/I
All combustible materials outside of your premises are kept to a minimum				
Combustible materials have been moved away from perimeter fences				
Waste skips and rubbish bins have been emptied				
Paper recycling bins been emptied				
If waste is to be left in skips, they are lockable				
All doors and windows are locked				
All flammable liquids are kept locked away				
Flammable/combustible materials have been tidied away				
If you have a fire alarm system, it is checked regularly				
If you have a security system (burglar alarm, security cameras etc.) it is checked regularly				
The intruder and fire alarms are set, and a member of staff has been put on call to deal with any activations				
If you have a letterbox, it has an internal metal container fitted to contain any fires from lighted rags, paper etc.				
If you have security fencing it is maintained and secure				
If vehicles are left outside at night, they are kept locked and easily visible to patrolling security guards or the police				
Any vehicles that are to be left on site have been secured				
You have brought your risk assessment to the attention of your staff				
You have discussed the dangers of arson with your staff				
Where possible, all electrical items have been turned off				
You have instructed a member of your staff to walk the premises before the last person leaves to check on fire risks and security				

Occupational health and safety procedures examples. Occupational health and safety procedures manual. Occupational health and safety procedures meaning. Occupational health and safety procedures poster. Occupational health and safety procedures in sewing. Occupational health and safety procedures in computer system servicing. Occupational health and safety procedures in the workplace. Occupational health and safety procedures in the kitchen.

The PDF is one of the best health health books and occupational security to download. How can I register for a course? When should I register for a course?
